Hi David,

Thank you for your patience. We finally arrived back in OKC from our travel nightmare and could access data sources needed to complete. Please see attached spreadsheet with updated Children's Health information.

Please note that the Infant Mortality Rate (IMR) is a rate per 1000 live births and not percentage and that we included both annual and three-year data for the IMR. The three-year moving average IMR is the current standard and the one we are reporting publicly. Also all of our data is by calendar year and not fiscal year and as such we do not have calendar year 2016 data yet but appears may be good year.

Let me know if there is anything further needed.

Best,

Joyce
